UNCLASSIFIED / FOR OFFICIAL USE ONLY (FOUO)

INCIDENT OBJECTIVES (ICS 202)

| | | | | | | | | | | | | |
|--|--|--|----------------------------------|--|---|---|---|---|--|---|---|--|
| 1. Incident Name: LA Chargers Camp | 2. Operational Period: Date From: 7/25/2019 Date To: 8/16/2019 Time From: 0800 Time To: 1300 | | | | | | | | | | | |
| 3. Objective(s): 1. Safely manage the crowd around the event for the duration of each daily practice. 2. Provide Fire and Police support to LA Chargers Training Camp. 3. Establish and maintain smooth traffic flow around the exterior perimeter of the event. 4. Maintain public order and minimize disruption to area businesses and residents. 5. Protect life, property and environment. 6. Establish minimum level ICS structure to support any escalating event. | | | | | | | | | | | | |
| 4. Operational Period Command Emphasis: The event coordinator has entered into a Special Events Contract with the City to provide safety services to support the event. Los Angeles Chargers Security and Elite Security will be responsible for incidents within the venue. If an incident rises to a level beyond their capabilities, security will call the Operations Chief (Sgt. Hoferitza) or a designee to initiate a call for service. It is unknown how many people will attend and what issues may arise. The event has the potential to grow beyond the control and capabilities of the event coordinator and security personnel. Situational updates will be ongoing between event staff and the Operations Chief to plan and respond to any unanticipated issues. | | | | | | | | | | | | |
| General Situational Awareness - At times event population may exceed 1000 visitors, in addition to the simultaneous Orange County Fair. - Vehicles and pedestrian traffic is expected to be continuous. - Use the Public Safety Corridor – (Ingress / Egress Route) unless directed or necessary to do otherwise. - Use CAUTION when navigating through crowds with Police/Fire apparatus and enforcement vehicles. | | | | | | | | | | | | |
| 5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Approved Site Safety Plan(s) Located at: - Responsibility of event organizer. | | | | | | | | | | | | |

Costa Mesa, CA

Planning and Intelligence

The Orange County Intelligence Assessment Center (OCIAAC) is aware of the situation and is monitoring open-source activity. Detective John Smith (Support Services Division - TLO) is monitoring the information coming into the department from various sources.

The event is permitted through the City. Cpt. Davis is the Police Department's liaison for all Los Angeles Chargers related matters, has the names and contact numbers for all key members of the Chargers organization, and shall be kept updated on any significant issues.

No patrol officers are assigned to the event. Patrol Officers will be used to augment traffic enforcement as needed and to respond to calls for service.

Lt. LaPointe (Telecommunications Bureau Commander) is aware of the event and advised there are no changes in communications operations for the event. All personnel dedicated to this event will be using 1 GREEN 3 to monitor operations. In the event that a call for service is generated at Jack Hammett Sports Complex, response, staging and logistics will be handled on 1 GREEN 1. Cpt. Davis notified Communications Supervisors of the event.

A pre-established public safety route has been identified to allow resources quick access during emergencies or when responding to calls for service. This route will also be utilized for evacuations of the sports complex if needed. The **Public Safety Corridor** runs between Arlington and Jack Hammett Sports Complex on the east side of Costa Mesa High School.

Public Safety Corridor – Ingress / Egress Route

Tactical Objective

The tactical objective for this event will be to maintain perimeter security, keep the peace, ensure pedestrian spectators are in safe areas, and maintain traffic flow around the exterior of the event. CMPD is unaware of any disruptions at this time; however, resources must be prepared to scale up or down as needed.

If additional resources are needed, the Operations Chief will request these resources via CMPD Communications. Additional resources will be committed to operations in team (squad) units. No officer should engage in operations without being assigned to a specific mission by the Operations Chief (**No self-dispatching**). The primary staging area for deployment of additional resources will be at the Costa Mesa Police Department.

Arrest/Enforcement Posture

The response will reflect an unbiased approach to any of the participants. Officer's demeanor should be positive, friendly and helpful. Officers should attempt to get compliance when feasible.

If the group becomes unruly or engages in illegal actions, the response will transition into a crowd control posture and assume a more autocratic stance. Participants who engage in overt criminal conduct will be arrested and removed as quickly as it can be reasonably accomplished.

Force Policy

Pursuant to CMPD policy, all force used during this event shall be objectively reasonable.

Traffic Plan

Mission: The Traffic Safety Bureau will provide traffic support to the LA Charger Training Camp beginning at 0900 hours July 25, 2019, which will continue for the duration of the event. This will be repeated on all scheduled practice days.

The primary objective is to assist in the flow of traffic and provide for the safety of pedestrians attending the event. Traffic will provide assistance as directed by the Operations Chief and enforce traffic laws that could cause harm to anyone in the affected areas.

Maneuver: There may be a hard closure at E/B Arlington and Fairview beginning at 0900 hours and ending at 1200 hours. One traffic officer and two additional traffic personnel will be assigned this post.

The main objective is to assist vehicle traffic to the designated parking location for the event, which is located at gate 3 (Merrimac/Fairview) of the OC Fairgrounds. S/B left turn lanes at Arlington will guide all traffic south to the desired parking area and prevent vehicles from prematurely turning left onto Arlington. There will be an officer assigned to the intersection controlling the phasing of the signal and two additional personnel to assist pedestrians in safely crossing the roadway.

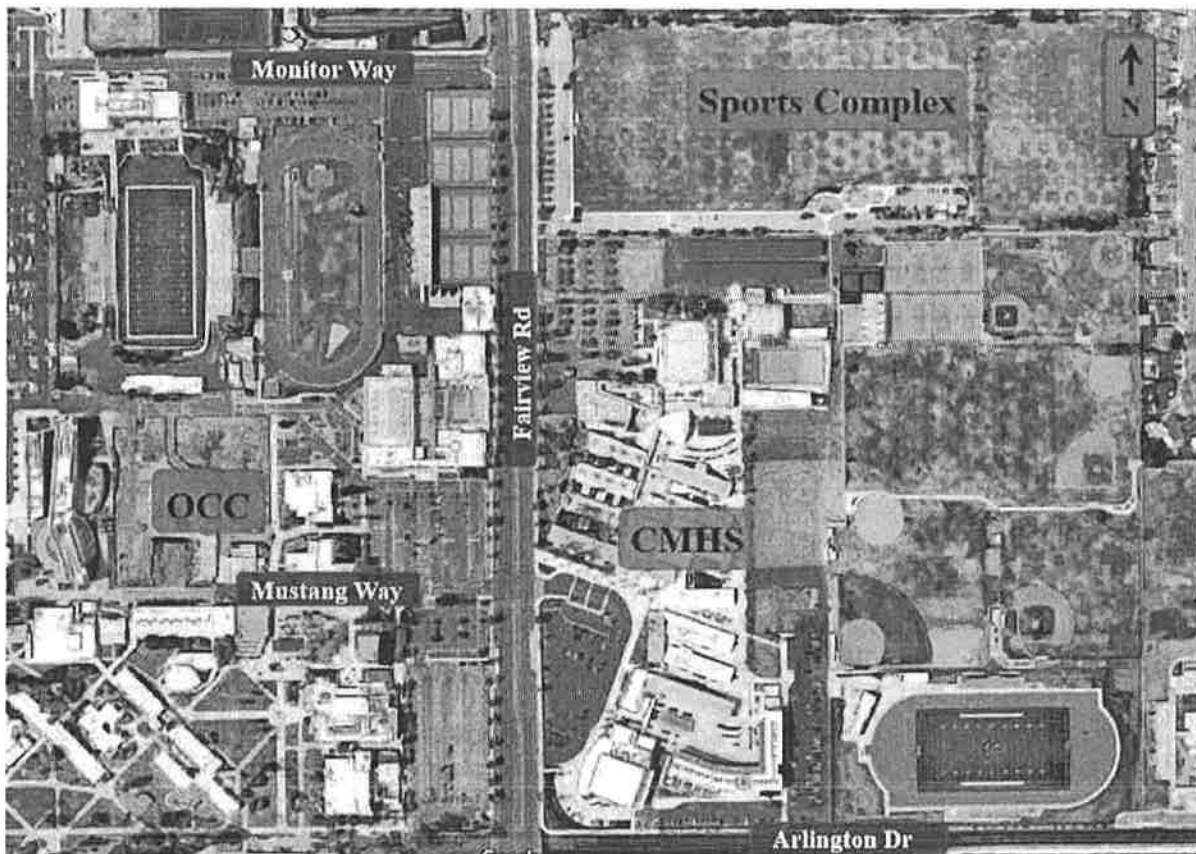

Mustang Way will be manned by an officer, controlling the phasing of the intersection and one additional personnel to assist with pedestrian crossing in front of Costa Mesa High School. The

south turn lane into the high school will be open to allow parking at the school. The S/B left turn lane into the north parking lot will be closed.

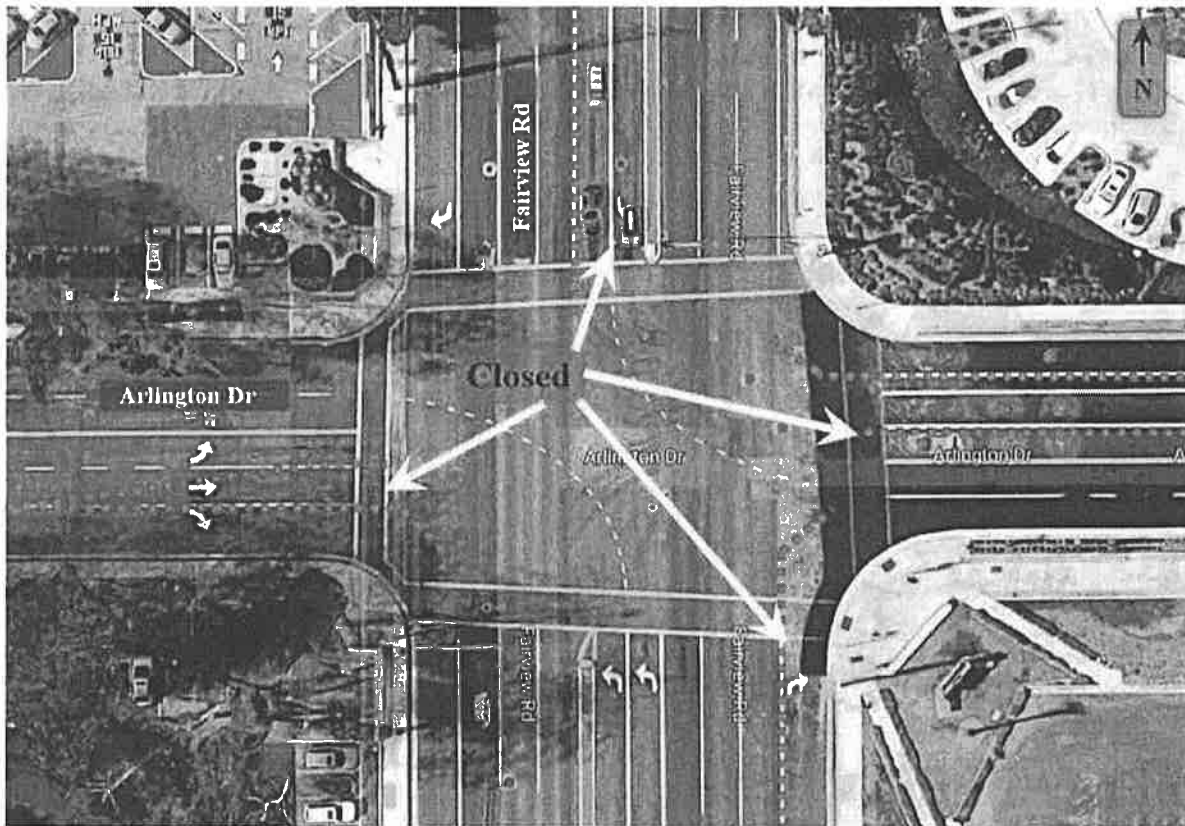

Monitor Way and Fairview Road will have an officer in control of the traffic signal phasing and one additional personnel to assist with any unforeseen incidents.

Costa Mesa Police Explorers/Aides will be assisting all locations for the added safety of pedestrian traffic. Roving motor officers will be available to assist with any other traffic conditions.

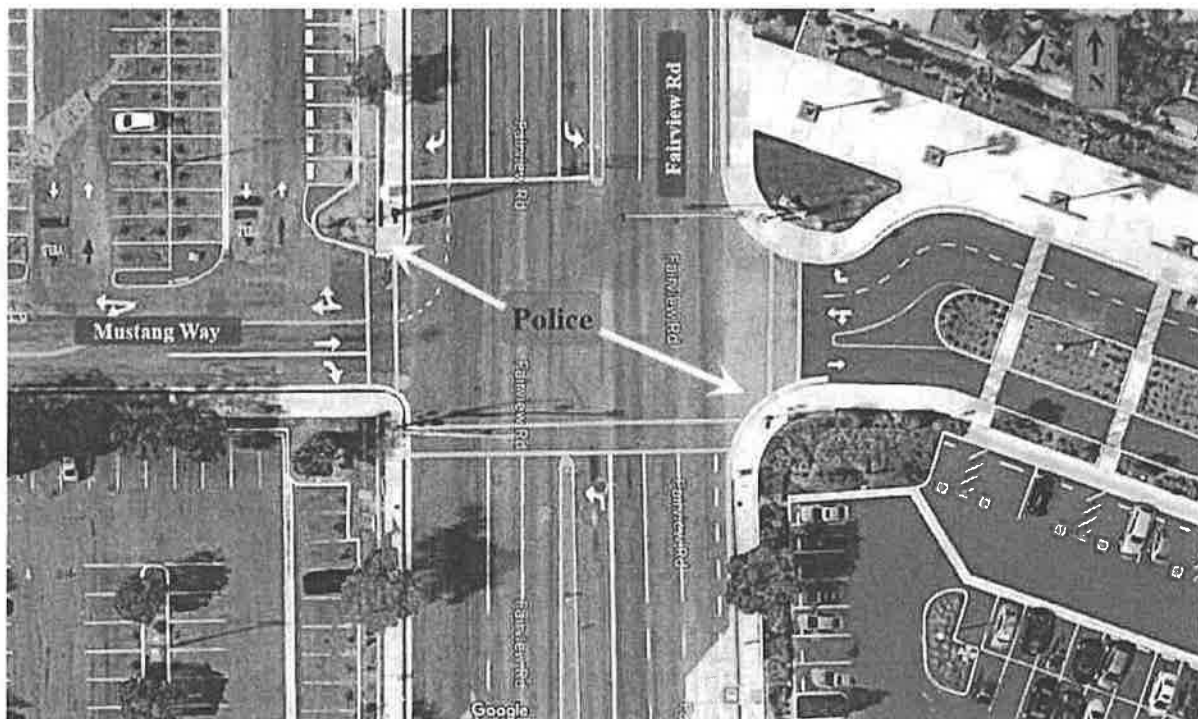

Jack Hammett Sports Complex in relation to OCC & CMHS

Closed Lanes IVO Arlington & Fairview

General Location of Officers IVO Mustang Way & Fairview

Fire / Rescue/ EMS Plan

Costa Mesa Fire & Rescue Department (CMF&R) will provide "ALS Paramedic Ambulance standby coverage" for the LA Chargers Training Camp as outlined below. The CMF&R will provide one (1) Rescue Ambulance staffed with two (2) Orange County Accredited ALS Paramedics.

The staffed CMF&R Ambulance will be dedicated to the training camp and will report to Mr. Mitchell or directed Charger Medical Staff. The Rescue Ambulance will operate under OCEMS guidelines for patient care and will provide to Charger Medical Staff OCEMS policy 310.15, "Physician at Scene" authority. (Attached). Orange County EMS policy 310.15 outlines the authority of the licensed physician on scene.

In the event of an emergency, the CMF&R Paramedics will activate the emergency 911 system, make patient assessment / field treatment, establish hospital base contact and facilitate transport to the identified ER or Trauma hospital.

CMF&R will stage the Standby Unit by the medical tent (attached map) and will arrive on location prior to the start of each practice and will remain on site for the duration of the practice. In the event of an emergency incident with a Charger Player, the CMF&R staff will respond onto the field at the direction of the Chargers Athletic Staff, if not directed onto the field then the CMF&R will stay at the Chargers Medical Tent. If a Charger Player requires transport, the CMF&R Ambulance will exit the property via the safety corridor established by CMPD.

In the event of an Emergency Medical Aid, on property, which is not related to a Charger Athlete, then the 911 system will be activated and dispatch will send the closest ALS Unit and CMFD Transport. The ingress and egress for emergency vehicles will be as established by the CMPD Public Safety Corridor or other directed access. (See Public Safety Corridor – Ingress / Egress Route map)

A public first aid station staffed by private Emergency Medical Technicians (EMT)(Care) will be established next to the concession stand. If an emergency is reported at the first aid station, the 911 system will be activated.

Air Operations Plan

HB1 will monitor the operational radio frequency (1 GREEN 3). They will also monitor 1 GREEN 1 Radio Channel and respond as needed. HB1 is operational on Day Watch at 0800. The information was given to HBPD Ofc. Lyons on 07-18-2019 @ 1200 hours by Cpt. Davis.

(U) Chargers Training Camp

Orange County Intelligence Assessment Center

CHARGERS TRAINING CAMP

25 July 2019

(U) The Orange County Intelligence Assessment Center prepared the following Special Event Quad to aid event personnel, law enforcement, public safety, and security officials in proactive planning for the event and associated activities.

(U) Tracked by HSEC 8.3.1, 8.4.1, OCIAC I.1, I.1.b, II.1

| (U) SUMMARY | (U) PRE-INCIDENT INDICATORS |
|--|---|
| <p>(U//FOUO) OCIAC currently holds no information indicating any credible or specific domestic or international terrorist threats against the Chargers Training Camp, running from 25 July to 28 August 2019. The number of athletes, visitors, and media make this event a potentially attractive target for extremist groups or individuals. The general threat environment is such that public safety entities must remain highly vigilant during the event.</p> <p>(U//FOUO) OCIAC reminds partners to be aware of the potential for protests and counter-protests, possibly causing disruptions in the vicinity of an event and including the team hotel. These individuals may use a variety of tactics, including the use of loudspeakers, vandalism, or trespassing.</p> <p>(U//FOUO) Site personnel should also be aware of public sentiment towards the National Football League, the Chargers, visiting teams, individual players, or team staff. This sentiment should be examined across a variety of criminal, political, or sensitive subjects. Both confirmed connections and false attribution can lead to a negative response by the public.</p> | <p>(U//FOUO) Event personnel are encouraged to identify and report any suspicious activity and behavior of individuals conducting activity that may be indicative of pre-operational planning. Possible indicators of suspicious activity include:</p> <ul style="list-style-type: none"> • (U//FOUO) Suspicious vehicles located in close proximity to event locations • (U//FOUO) Hoax bomb threats toward the event and surrounding area • (U//FOUO) Unclaimed or suspicious packages/objects found in or near event areas • (U//FOUO) Potential surveillance targeting the event (e.g., observation, drone use, note-taking, voice recording, photos, video, etc.) • (U//FOUO) Social media posts indicating a potential threat or advocating violence against the event • (U//FOUO) Theft of uniforms, particularly from security companies, law enforcement, and fire personnel • (U//FOUO) Attempts to drive vehicles into areas where crowds are gathered, especially in areas closed to vehicle traffic • (U//FOUO) The purchase, rental, or theft of large or heavy-duty vehicles or equipment, if accompanied by unusual behaviors such as nervousness during the purchase, paying in cash, or lack of familiarity with the vehicle's operations |
| (U) LOCAL CRIMINAL THREATS | (U) CRITICAL INFRASTRUCTURE & LOCAL IMPACTS |
| <p>(U//FOUO) The most likely criminal threats may include low level criminal activity, including vandalism, petty theft, or trespassing. Suspicious activities in the area of the event or associated venues should be reported to the Costa Mesa Police Department and OCIAC.</p> <p>(U//FOUO) Event planners and public safety personnel should remain alert to the potential for theft of identification, credentials, or apparel, which may provide a nefarious actor access to restricted areas in or near the event.</p> <p>(U//FOUO) Special attention should be paid to individuals attempting to gain access to restricted areas at the event, event-related venues, or critical infrastructure facilities in close proximity to the event.</p> | <p>(U//FOUO) Special events at large venues may not be confined by physical structures and do not rely on permanent, dedicated security resources, instead relying on local law enforcement and other staff to provide security during the event.</p> <p>(U//FOUO) Large outdoor public gatherings often include crowds in the vicinity of critical infrastructure. Pre-event planning by local public safety and event organizers should take into account any impacts to critical infrastructure in the vicinity of the Chargers Training Camp, which include:</p> <ul style="list-style-type: none"> • Costa Mesa High School • Costa Mesa Police Department and City Hall • Davis Magnet School • Orange Coast College • OC Fair & Event Center • Vanguard University |
